This allows you to download videos in high quality or full HS; can schedule downloads; is able to batch download more than 10 files with a single click; is able to convert videos you've already downloaded, and more.. Key features include : Copy/paste a list of URL's to download and convert several videos simultaneously.. VDownloader is a powerful tool that will help you locate and download videos from YouTube, Google Video, Facebook, MegaVideo, and many video sharing sites.

VDownloader supports conversion to most popular formats for devices such as iPod, iPad, iPhone, Android, Blackberry and Windows Phone.. You can use the program alongside a browser If you're at YouTube and find a clip you like, say, just copy it to the clipboard.. 12 Sierra If you are not 100% satisfied, it's very easy to remove our application without any traces.. VDownloader will detect this, pop up a message, and you can be downloading the video in a couple of clicks.

You can then often play the clips within VDownloader, and download copies at a click, without opening a browser window at all.. We strive to make sure this software works perfectly on every PC with at least Windows 10 or Mac OS 10.

VDownloader For PcThe authors also produce an enhanced version of the program, VDownloader Plus.. It's yours for \$29, and you can find out more at the VDownloader site. Alternatively, simply click the search button, enter a key word or two, and VDownloader can list matching videos at YouTube, Google Video, Yahoo! Video or Daily Motion.

VDownloader has received several awards In this page, you can see who awarded each award, and for what reason.. The program doesn't just download the source formats, either Sure, you can have the original FLV files if you like, but VDownloader can also convert the videos to AVI (in various sizes), MPEG, 3GP, MP3 if you just need the soundtrack, and formats suitable for the iPod, iPad, PSP, Nokia N800/ N810, and more.. VDownloader can download batches, import and export files and check for RSS updates.
